

## ***Bowsprit Questionnaire***

1. What is the make, model and year of your yacht?
2. What free flying sails (Spinnaker, Code0 etc.) are you planning to use and what are their sizes?
3. What kind of sailing do you engage in? Racing, cruising, a mix of the two?
4. Where do you sail?
5. Do you have a bow roller?
  - a) If you have a bow roller, is it a double or single channel?
  - b) If you have a bow roller, do you sail with the anchor in place?
6. If planning to mount on the bow roller, provide a photo and measurements:
  - a) width at the forward most point
  - b) width near the head stay
  - c) length past bow
7. Do you have a rub rail? If yes, provide a photo and how far it protrudes past the hull.
8. Is the inside of your bow clear from obstruction for a through hull installation?
9. To estimate mounting location of the sprit, provide the following measurements and photos of your yacht from top and side:
  - A: across the deck at 50cm (24") from tip of the bow
  - B: across the deck at 25cm (12") from tip of the bow
  - ?: indicate if you have a requirement for tack attachment extension from the tip of the bow
